## Insurance and Benefits

Guide for members of NAIT

- Health Insurance
- Life Insurance
- Disability Insurance
- Accident Insurance
- Critical Illness Insurance
- Dental and Vision Insurance
- Telehealth/Pet Health

## Health Insurance

---

Buying the proper healthcare plan is an important decision. A Truckers Healthcare advisor can help you enroll either during open enrollment (Nov/Dec) or offer you an alternative healthcare option throughout the year. Call today for a quote or get a comparison to your existing plan. [888-472-4114](tel:888-472-4114)

## Life Insurance

---

Most self-employed truckers have little or no life insurance. Make sure your family is taken care of with affordable level premium life insurance.

- Get up to \$100,000 policy guaranteed and up to \$250,000 with approval
- Accidental death policy available guaranteed up to \$500,000
- Coverage available for spouse and children

## Disability Insurance

---

An unexpected illness or injury could take you off the road and impact your life. Disability insurance can help replace lost income and insure your finances are not depleted.

- Get up to \$3,000/monthly benefit guaranteed and up to \$5,000/monthly with approval
- Take coverage with you if you should leave your current motor carrier

## Critical Illness

---

Get financial support if you're diagnosed with a critical illness. Focus on getting better and not stressing over financial worries.

- Choose from either a \$10,000 or \$20,000 guaranteed lump sum benefit
- Covered conditions include heart attack, stroke and cancer (15 covered conditions in all)

## Dental Insurance

---

Research shows that oral health and overall health are closely related. When you keep your teeth healthy, you also help to keep your body healthy.

- 100% coverage for preventive services like cleanings, exam and x-rays
- Coverage for basic and major services

## Vision Insurance

---

An annual eye exam is about much more than healthy vision. It can help identify the early signs of serious health conditions like diabetes and high blood pressure.

- Coverage for routine eye exams
- Generous allowance on eye wear and contact lenses

## Accident Insurance

---

Accident coverage helps to pick up where other insurance leaves off and provides cash to help cover the expenses.

- Pays in addition to any other coverage you own
- Covered conditions include hospital, ER, fractures, ambulance, x-rays, therapy and more
- Accidental death benefit included
