Health Insurance

Buying the proper healthcare plan is an important decision. A Truckers Healthcare advisor can help you enroll either during open enrollment (Nov/Dec) or offer you an alternative healthcare option throughout the year. Call today for a quote or get a comparison to your existing plan. [888-472-4114](tel:888-472-4114)

Life Insurance

Most self-employed truckers have little or no life insurance. Make sure your family is taken care of with affordable level premium life insurance.

- Get up to \$100,000 policy guaranteed and up to \$250,000 with approval
- Accidental death policy available guaranteed up to \$500,000
- Coverage available for spouse and children

Disability Insurance

An unexpected illness or injury could take you off the road and impact your life. Disability insurance can help replace lost income and insure your finances are not depleted.

- Choose between a 3 or 6 month policy
- Get up to \$3,000/monthly benefit guaranteed and up to \$5,000/monthly with approval
- Take coverage with you if you should leave your current motor carrier

Critical Illness

Get financial support if you're diagnosed with a critical illness. Focus on getting better and not stressing over financial worries.

- Choose from either a \$10,000 or \$20,000 guaranteed lump sum benefit
- Covered conditions include heart attack, stroke and cancer (15 covered conditions in all)

Dental Insurance

Research shows that oral health and overall health are closely related. When you keep your teeth healthy, you also help to keep your body healthy.

- 100% coverage for preventive services like cleanings, exam and x-rays
- Coverage for basic and major services

Vision Insurance

An annual eye exam is about much more than healthy vision. It can help identify the early signs of serious health conditions like diabetes and high blood pressure.

- Coverage for routine eye exams
- Generous allowance on eye wear and contact lenses

Accident Insurance

Accident coverage helps to pick up where other insurance leaves off and provides cash to help cover the expenses.

- Pays in addition to any other coverage you own
- Covered conditions include hospital, ER, fractures, ambulance, x-rays, therapy and more
- Accidental death benefit included
